SCE’S APPLICATION FILING

On June 26, 2018, SCE filed Application (A.) 18-06-015 with the CPUC requesting approval to increase rates for Phase 2 of its Charge Ready Infrastructure and Market Education Programs (Charge Ready 2). Charge Ready 2 focuses on the continued deployment of electric vehicle infrastructure programs throughout SCE’s service territory. SCE is seeking to recover a total of \$760.1 million for costs associated with this program, beginning in November 2019. If approved, Charge Ready 2 will expand on the programs approved in SCE’s Charge Ready Pilot¹ by providing support for an additional 48,000 charge ports over a four-year program, while implementing new and innovative marketing, education, and outreach components. Charge Ready 2 supports and accelerates electric vehicle (EV) adoption consistent with California’s efforts to reduce greenhouse gas (GHG) emissions by 2030.

¹ The CPUC authorized SCE’s Charge Ready Pilot in D.16-01-023.

CUSTOMER IMPACT

If the CPUC approves SCE’s application as proposed, an average non-CARE residential customer using 550 kWh per month could see a monthly bill increase of \$0.84, from a current monthly bill of \$111.26 to \$112.10. The following table compares SCE’s current bundled average rates, by customer group, to proposed bundled average rates in 2018 if SCE’s application is approved by the CPUC:

Charge Ready 2 Rate Impacts²

Customer Group	Bundled			
	Jun 1, 2018 Rates (¢/kWh)	Proposed Increase (¢/kWh)	Proposed Rates (¢/kWh)	% Increase
